

215TH OCTOBER 2018 CLERKS REPORT

CORRESPONDENCE

Rolleston Neighbourhood plan we are a statutory consultees and comments are requested by November 5th.

NORTH STAFFORDSHIRE (DERBY – CREWE) RAILWAY LINE

‘Inter-City Kitty’ campaign launch event

Tuesday 23rd October 2018 at 17:15,

Derby

The East Midlands Branch of Railfuture is campaigning for improvements to the

‘North Staffordshire’ line between Derby, Stoke-on-Trent and Crewe.

Why is this important?

We believe the Derby - Crewe line has massive potential as an intra- and inter-regional link – especially between the East Midlands and the North West, as well as for local services.

However, despite already connecting two important cities and two major railway interchanges,

passenger services are limited to an hourly stopping service mostly provided by elderly singlecoach

railcars. The line could offer so much more to the important sub-region it passes through, along with the inter-regional links it could provide if extended over other routes at either end.

The campaign

We have nicknamed the present service the 'Inter-City Kitty' and are asking 'Shouldn't it be a lion?' To raise the profile of the campaign, we have commissioned some artwork. Our artist, Laura Buckland, has cleverly depicted the train in feline form, accompanied by its strapline. The artwork will subsequently be made available online for free download.

The Derby-Crewe line and the services on it mean different things to different people. We believe that a humorous image could unite these various interests and inspire constructive dialogue on exactly what improvements should be provided, for whom and in what order.

The launch event: Tuesday 23rd October

The Carriage Shop Theatre in the Derby Roundhouse, adjacent to Derby railway station.

Doors open: 17:15

Artwork launch with brief speeches: 18:00

Drinks and nibbles will be available. This will be a great opportunity for networking.

Guests will be free to catch the 19:42 train to Crewe.

Please join us!

We aim to bring together in an enjoyable setting the movers and shakers across the regions that

could benefit from this line. Please join us!

Campaigning for better services over a bigger rail network

Polling consultation

Under Section 18C(1) of the Representation of the People Act 1983 (RPA 1983) local authorities must carry out and complete a review of polling districts and polling places in the period specified by section 18C(2)(a) of the RPA 1983. The next compulsory review must be started and completed between 1 October 2018 and 31 January 2020 (inclusive).

The consultation period for the next review in East Staffordshire will commence on Monday 1 October 2018 and ends on Wednesday 31 October 2018. The Returning Officer invites comments on proposed polling places. Full details about the review are outlined in the official notice.

We are looking for feedback on any aspect of polling districts and/or polling places currently [or potentially] used and invite representations and comments from interested persons.

Please send any comments via email to: elections@eaststaffsbc.gov.uk

Review of Polling Places – 2018 Current Arrangements

Poll Dist	Ward	Polling Station	Comments	Officer Response

Neighbourhood Development Plan for Rolleston on Dove.

In accordance with Regulation 14, we are sending this document to your organisation as one of the statutory consultees.

You may be aware this is the second Regulation 14 draft Neighbourhood Development Plan. The original was withdrawn due to the large number of comments received and the then impending update of the National Policy Planning Framework (NPPF). If you have made any previous comments or suggestions, the steering group has, on behalf of Rolleston on Dove Parish Council, carefully considered each one and has incorporated them where applicable. We thank you for your previous response.

The consultation period ends on Monday, 5th November 2018 and any further comments and feedback can be returned to this email address.

Peacocks sign

No update awaiting further discussion on the triangle

Budget consideration report from budget meeting

Historic sign £5k requested

Bouyancy aid £357

Football pitch update

The hard standing at the entrance of the changing rooms is now repaired.

Brambles have been cut back but there is still ivy in the roof tiles around the meter cupboard so further work will be required to remove that.

A spec for the repair of the football pitch still needs creating and sending out to contractors

DECISIONS

Application under Section 73 of the Town and Country Planning Act 1990 for the erection of five dwellings with associated garaging without complying with Condition 2 of planning permission P/2017/00748 dated 01/12/17 relating to the orientation of the garage on plot 2

Land off, Burton Road, Tutbury, Staffordshire. **PERMITTED**

Liquid Amber Slender Silhouette

- , *Liquidambar styraciflua*, and as the name suggests it has a tall, slender habit. Like its parent, it produces lustrous, maple-like green leaves, which take on spectacular shades of orange and crimson in the autumn before they fall - especially if they are grown on acidic soils with lots of sun. It will also produce curious, spikey fruits that ripen from green to brown, and hang from the branches like exotic dangly earrings. An easy to grow tree that will reach around 18m tall (it puts on an average of 30-60cm (1-2ft) each year), but will only spread to around 2m wide. Height and spread in 20 years: 6 x 1 metres

The tree has glossy green maple-like leaves in summer, which turn to rich red, orange and golden shades in the autumn holding on to the tree for some time, with the best red colours produced on acid soils. It has insignificant flowers, but produces golf-ball sized brown spiky fruits. Sweetgums are soil tolerant but prefer deep well-drained soil in a sunny spot and once established can withstand both temporary flooding or drought. This variety won a gold medal in America in 2010 from the Pennsylvania Horticultural Society and we expect it to be very popular over here.

- **Garden care:** When planting, incorporate lots of well-rotted manure or garden compost into the planting hole and stake firmly. Requires minimal pruning. Remove any broken, diseased or crossing branches in late autumn or winter.s

Considerations from a resident

- 1.
2. The proposed revised siting will affect the light to Castle Hill House. It would be wrong for the problems affecting me to be visited on others.
3. There are conservation restrictions on what I am permitted to do to the front of my home. Given the size of the trees that have been purchased, I would urge the council to consider how these will affect the character of the green as they will dwarf the other trees and put the bench into shade. Conserving the character of the village is something we are all responsible for.
4. I appreciate that these trees have been chosen for their beautiful and symbolic coloured foliage. In order, however, that they are kept in proportion to their surroundings and to protect them against strong winds, they will need regular pruning. This will give the parish council an on-going financial commitment.
